

```
> let printMyInputES6 = (user_input) => {
... console.log(user_input)
... }
undefined
> printMyInput
printMyInput

printMyInputES6

> printMyInput
printMyInput

printMyInputES6

> printMyInputES6(9)
9
undefined
> printMyInputES6("John")
John
undefined
> let printMyInputES6Short = user_input
Uncaught ReferenceError: user_input is not defined
> let printMyInputES6Short = user_input => console.log(user_input)
Uncaught SyntaxError: Identifier 'printMyInputES6Short' has already been d
> printMyInputES6(9)
9
undefined
> printMyInputES6('John")
printMyInputES6('John")
      ^^^^^^^
Uncaught SyntaxError: Invalid or unexpected token
> printMyInputES6("John")
John
undefined
